

*The Monthly Bulletin*  
July 2007-

### **PRESIDENTS MESSAGE**

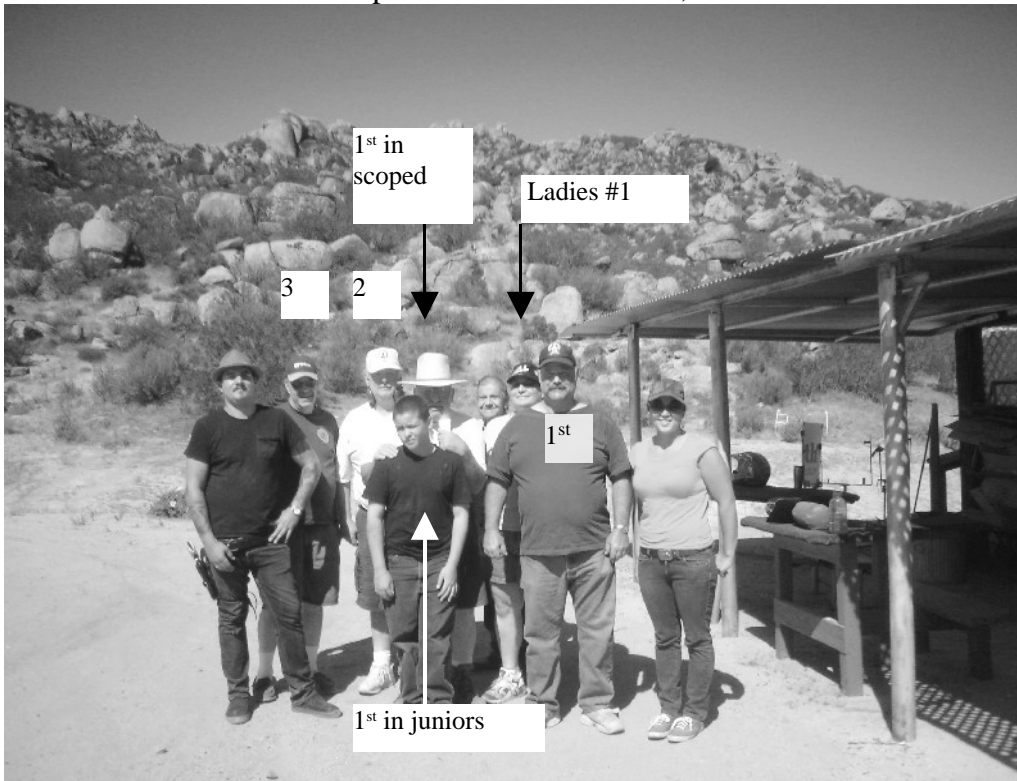

My goal of keeping the members informed of the results of the board meetings will now be one month behind. The reason for this is to allow the board to review and add anything that was missed and approve the minutes, so Junes board meeting minutes will be posted in the next newsletter. The board's goal is to keep the entire club informed with accurate information.

### **RANGE SAFETY TOPICS OF THE MONTH**

Now that summer is here it is recommended that you have a hat, loose fitting clothing and have lots of WATER. This looks like a long hot summer this year and heat stroke can be fatal.

### **PISTOL SHOOT RESULTS**

The club has started another tradition with this years .22 cal pistol shoot. We are thinking about calling it the first annual Helen Keller can do better shoot. Yes there were winners, but the total score of all the winners did not equal 15!!!! The winners in the iron sight class ladies, Kam McClenahan took first place, for the men Bob Sorenson first with a total of 5, Ted Barker with a total of 4 and Rich Wilson with a total of 2. Rick Norfolk finished first in the scoped class. Issac Norfolk, 1<sup>st</sup> in Juniors.

These shoots are open to all members of the club, LADIES WE MISS YOU!!!! Please do not let your husbands out on the range by themselves during these shoots they need your help!!!! After this shoot the scores indicate WE men need lots of help!!

Another event in June was the inner club shoot held at the Palomar club, due to a malfunction of one of their trap machines the event took several hours longer than normal, but all had fun in the SUN. (LOTS OF SUN)  
The results of how we did compared to other LSC shooters are as follows:

Howerton, Joe  
Brown, Tom  
Norfolk, Rick  
Wilson, Rich  
Kesner, Ron  
Lison, Phillip  
Norfolk, Issac  
Barker, Ted

#### **UP COMING EVENTS**

Sat July 21<sup>st</sup> Turkey shoot, range has been modified for this event so it should provide more of a challenge.

Sunday July 22<sup>nd</sup> Big bore rifle shoot 100 yds, to classes iron sights and scoped.

### **LADIES PLEASE COME OUT FOR THESE SHOOTS AND SHOW YOUR HUSBANDS HOW TO HIT THE TARGET!**

Please visit Club s new web site <http://www.the-lsc.org>, in the very near future the news letter will be posted on the site but we will still mail copies of the newsletter to those who request.

For those who have asked the below address is for the San Diego Wild Life Federation, good stuff.  
<http://www.sdcwf.org>

Folks, this is YOUR club, and we encourage your input and support. There is no such thing as a dumb input to the board the only dumb input is the one that is not presented.
