

Lakeside Sportsmans Club THE BULLETIN

– September 2009 –

President's Message

August is now behind us! Let's hope that those outrageously high temperatures are as well. In the past it seemed that the nights would at least cool down, but not lately. I suspect the tropical storms south of us have had something to do with that. Just remember to keep well hydrated and conduct activities in short bursts and if possible, in the cool times of the day, i.e. morning and early evening.

There is some good news I would like to share with every one. Both the small 15KW diesel generator and the 30KW diesel generator are working! All thanks to the tireless efforts of Clint Schultz ably assisted by Wayne Kline. The 30 KW is still in the Tractor Building and needs to be reinstalled in the generator building. The generator building has been cleaned out and is ready. The backhoe tractor is back at the property and running well. Dorothy Schultz has made and installed curtains in both restrooms when not monitoring Clint and Wayne's activities. Remember that it was very warm weather while the repairs were in progress. Thank you Dorothy for all your help and attention.

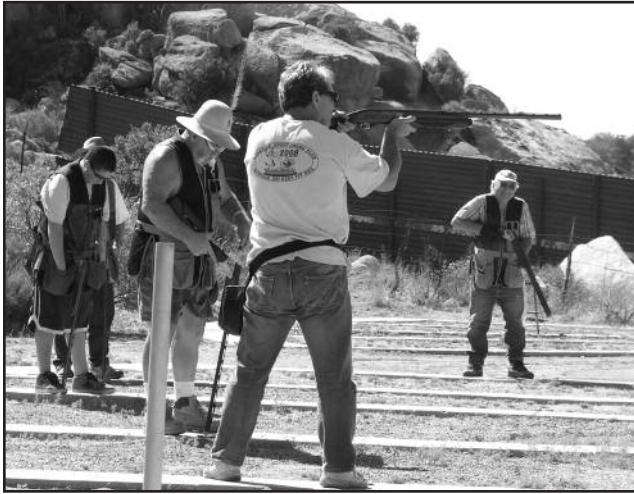

A reminder about the schedule change for this weekend. The Board meeting was re-scheduled for Thursday at the Lakeside Historical Society and not at the Camp on Saturday. I neglected to clarify that the Fun Trap Shoot that was to be on Sunday was cancelled because there is no Board meeting on Saturday. I plan to talk to the Board about re-scheduling and maybe inviting the Imperial County Club to join us. More to follow.

If you weren't there, you missed another great Labor Day Weekend pot luck dinner at the camp.

We had 17 participating in the Labor Day Weekend Pot Luck and was the chow ever GREAT!! There was a fog/low clouds in the Camp while we were eating and the temperature was quite pleasant. That evening the temperature was down in the low to mid 50's. Sorry you missed it.

We have 5 more fellows attending a RSO class this Saturday, which will give us a core group of eleven, who have been through the NRA course. This group will help write the range Safety Program so we can start qualifying our members as Range Safety Officers. The plan is to essentially get all members 18 years old and older qualified as Range Safety Officers. That will probably be done with a written exam. The main thing to remember is the SAFETY of every one at the range. I'm sure it will be an administrative pain in the neck but very necessary in the long run. Again, more to follow.

Any trap shoot at the camp is a time for fun and fellowship. Shown here are participants at the Mike Alspaugh Memorial Trap Shot.

The results of the *Mike Alspaugh Memorial Trap Shoot* with 11 participants were as follows:

<u>MEN</u>	<u>JUNIORS</u>
Class A Tom Brown	Isaac Norfolk
Class B Phil Lison	
Class C Bob Sorensen	

There was no Turkey Shoot on Labor Day Weekend due to no shows. This scheduling will be further reviewed.

The results of the *Ralston Shoot* with 12 participants were as follows:

<u>MEN</u>	<u>JUNIORS</u>
Class A Tom Brown	Isaac Norfolk
Class B Ken Lavigne	
Class C Rich Wilson	

Calendar of Events

SEPTEMBER

SATURDAY 05 LABOR DAY CAMPOUT/ POTLUCK/ TURKEY SHOOT/ NIGHT TRAP SHOOT

SUNDAY 06 RALSTON SHOOT (TROPHY)

THURSDAY 17 BOARD MEETING AT LAKESIDE HISTORICAL SOCIETY @ 7:00P. M. *

* This change from the original schedule is because of the high heat levels at the property.
